

**Your Trusted Source for Quality  
Vitamins, Herbs and Supplements**

**Don't Gamble with your Health**

Studies have shown that those bargain vitamins and supplements you buy have dangerous fillers and often do not have the active ingredients that they are supposed to contain. Very often they are in a form your body cannot use. They get flushed down the toilet!

All the vitamin products we sell are made in pharmaceutical grade facilities under rigorous quality control. They are tested and certified by independent testing labs. These are the vitamins recommended by the finest doctors. We also provide you with the detailed ingredient lists on all our products.

There is more. In order to assure that you get the freshest vitamins and supplements, we order from the factory everyday. This way you can be sure that you are getting the freshest items, not something that had been sitting in storage for months.

You can buy fresh, high quality vitamins and supplements from specialgifts.com at great prices. Why buy from us? Because, your health deserves the very best.
