It is universally known that gemstones have a positive effect on your health, they are not only used for adornment but they also help your body to maintain health and wellness.

SpecialGifts.com is also **a reliable source for your entire vitamin, nutritional and herbal supplement needs.** Visitors to the highly respected sister websites of SpecialGifts.com Holisticonline.com and 1stholistic.com, which now commands a whopping 8 million hits per month from all over the world, had been asking for a reliable source to buy quality supplements. As many of us know, most of the vitamins and supplements out there either does not have the ingredients listed, contain toxic fillers, or are not bio-available - meaning our body cannot use them. The brands offered by SpecialGifts.com have to meet the highest quality standards. They are made in pharmaceutical grade factories with testing done before, during and after manufacture to ensure that what is inside the bottle matches what has been promised outside. Nutraceutical items are ordered daily from the factories to ensure that the customers get the freshest vitamins and supplements; not items sitting in a store shelf or warehouse for years.

Thus, **each product sold by SpecialGifts.com is carefully selected for purity, freshness, and effectiveness.** They are guaranteed to have all the ingredients as posted, no fillers or other harmful products.

SpecialGifts.com also carries **products that challenge the brain.** It is known that people who perform activities that are challenging to the brain (brain teasers, cross word puzzles etc.) are less likely to contract Alzheimer's Disease and other neurological diseases. So, brain games such as Brain Chain are offered along with original art that helps organizations that have unique health focus or created by disadvantaged artists.
